

Campus Reconnect

Reacclimating to campus life through safe practices

The return to campus has many students and professionals excited about reconnecting with friends and colleagues. As students reengage in normal chapter operations, so comes the opportunity to partake in a variety of social experiences.

Created through a strategic partnership between Plaid and Favor & Company, Campus Reconnect is a comprehensive online course that covers the most important areas related to alcohol and other substances, hazing, event and crisis management, sexual assault, and mental health.

Joining the Conversation

Concerns on how to safely host and attend events

Organizations have a desire for members to receive education and resources on how to:

- Follow policies
- Implement safe event practices
- How to manage event attendee behavior
- Select appropriate themes

Concerns regarding risky behaviors

Organizations are concerned about providing targeted risk prevention education on:

- Eradicating harmful behaviors
- Identifying risky behavior
- Knowing what resources are available
- Understanding consequences
- Thinking critically

Concerns on fostering member connections

Organizations have expressed worry with the lack of institutional knowledge being passed down between classes. These concerns include but are not limited to:

- Connecting multiple classes of members
- Developing young student leaders
- Improving alumni relations
- Creating excitement for new programs and experiences

Hosting on Plaid's LMS

If your organization does not have a Learning Management System, Plaid will provide log in instructions for your members to create an account on our LMS.

Hosting on Organization's LMS

Plaid can provide the SCORM file so your organization can offer the course on your LMS.

Customer Support

Plaid handles all customer support concerns and provides solutions to issues in a timely manner.

Purpose - Keeping students safe

For some members, they might remember what campus and the social experience was like before the pandemic. For many, they may have never participated in an on-campus experience. Whether they've been a member of your chapter for a few years or they've joined recently, having a safe, meaningful, and enjoyable chapter experience is the primary goal.

The focus of this course is to help members achieve that goal when they return to campus. There will likely be a lot of opportunities to reunite and attend events this semester. This course is designed to prepare members for when they reconnect with their campus and their fellow chapter members so that their decisions align with their personal and organizational values.

What to Expect

- This course is designed to be a brief refresher on some important topics related to the campus experience.
- This course will touch on important topics like alcohol and other substances, hazing, event safety, sexual misconduct, and mental health.
- This course will provide members with resources and information so they can be prepared to have a safe and successful semester.

Pre-Program Assessment

This assessment will include questions that focus on individual experiences in the last year as a member of your organization and is approved and adapted by from a survey by Dr. Patrick Biddix at the Postsecondary Education Research Center.
